

**Ordinary Meeting Tuesday 27th
February – Little Mill Village Hall,
Buffet Room – 1800 - 2000**

DRAFT MINUTES

1. Attendance

Colin Deakins, Jenny Carpenter, Ann Bowyer, Jan Clark, Julian Bowen-Sargent

Meirion Howells & Tony Kear County Councillors

Two Members of public

2. Apologies

Jo Storey - Accepted

3. Declarations of Interest

Julian Bowen-Sargent – Scouts

Ann Bowyer – The Cedars (planning)

4. Chair's Remarks

The Chair thanked everyone for attending the meeting

5. Clerk's Report

The Clerk took Councillors through the Clerk's Report and updated Councillors on Actions outstanding

6. Comments / Questions from the public

A member of public was in attendance with a view to joining Llanbadoc Community Council.

Mark Malson was in attendance in his capacity as Secretary for Monkswood Cricket Club. He kindly explained to councillors the status of Monkswood Cricket Club following an arson attack that took place in December destroying the Pavilion and all the play equipment kept inside.

The club will be able to play in the league as agreed by South Wales Cricket League but are desperate for cricket play equipment to be doing so.

A planning application has been submitted to MCC along with drawings for the new pavilion. No building will be completed by the time of the season, but the club are hopeful that a pavilion will be ready for next year's season.

The club are in ongoing discussions / dispute with their insurance providers, they may be 'under insured' and do not believe that all of the building contents were covered. Mark explained a tort situation where the club have enough funds to operate but not if they are required to purchase more play item.

Tony Kear explained that the Roger Edwards Trust may be a route to explore for the club in terms of

localised funding options. The Clerk has passed details to Mark for the site manager of BAE who displayed a cursory interest in supporting the cricket club if possible.

The club is also speaking to Panteg's ladies' team to offer their pitch for use as the ladies' team has been struggling for a base of play.

A play equipment list and small grant form has been submitted to LCC by the cricket club.

Mark also commented on the condition of The Beaufort Pub and explained that the fire service have attended the property. There are concerns that the derelict state of the building is encouraging anti-social behaviour in the area which may have resulted in the fire at Monkswood Cricket Club which leases its land from the Beaufort.

7. County Councillor Participation

Tony Keir wrote to MCC enforcement concerning the condition of The Beaufort. He noted to them that there may be someone living in there and that the building is of derelict condition. Enforcement Officers claim that no one is living there and that the building is in better condition than it was previously.

Meirion Howells reports:

Ongoing discussions with the Usk Trail.

Meirion has contacted relevant departments regarding a new bus stop

An MCC councillor would like to circulate a questionnaire to establish the need for affordable housing in the area.

Concerns from residents at Island House Llanbadoc regarding poor visibility from their entrance driveway. Highways has offered to sign write the road with SLOW / ARAF markings. The resident is welcome to put him a sign on their own curtilage.

Comments for the planning amendments for Trostre Weir to allow for fish migration are now open.

Tony Keir received a comment from a resident of Usk that the speed-limit is too high on the road passing the Glan-Y-Afon. Tony refused to take the matter further as it is not possible to overturn the decision at this time. (Trial period of Welsh Government policies)

Meirion has reported that the 20mph sign there is a repeater sign and should be replaced with a sign of the correct size.

Tony was contacted on 27.02.24 regarding 'pavement parking on Green Meadow Lane' he wanted to reiterate that pavement parking is an issue on the lane and that a vehicle has been mounted on the pavement since about November – As Tony sits on the crime & Commissioner panel, he made a complaint that despite having a new inspector there has been little involvement in the area. He has since been offered a meeting with county / town council. Tony thinks it would be of benefit for the inspector to attend a Llanbadoc Community Council meeting.

8. Approval Of Ordinary Meeting Minutes

- a. Tuesday 23rd January 2024 – Ann Proposed amended minutes are approved. Jenny to second (include surname of member of public)

9. Community

- a. Discuss outcome of meeting with BAE liaison
 - i. This was included in the Clerks' Report, please see appendix:
- b. Discuss and resolve proposed National Grid access and site lease at Little Mill Village Hall
 - i. More information will be required on where the site is due to be situated
- c. Discuss Glascoed Lane fly-tipping hotspot. Resolve to mitigate waste left there.
 - i. The issue was brought up to County Councillors. The cases of fly-tipping at the site are being reported and cleared away but the fly-tip is increasing at the site.

10. Finance & Procedure

- a. Authorisation of payments to be made

Merlin Environmental <i>Emptying of 6x dog poo bins</i>	£109.20

AP57	Information for National Grid to go back to Little Mill Hall	Chair to update LMVHA on access requirements and easements for National Grid	Unknown
AP58	No longer receiving enforcement notices from MCC	Clerk has emailed enforcement officer to ask what has happened	

2. BAE meeting notes

Clerk attended a meeting at BAE on 21.02.2024 with Paul Hemmings. Paul explained that BAE is one of three remaining munitions plants in the UK and is currently subject to expansion due to increase in global conflict. 80% of munitions manufactured at BAE are used by British military for training exercises.

BAE is a 1000-acre site situated in Glascoed, benefitting a level of protection due to its rural setting. BAE retain ownership of some residential properties, greens, and municipal spaces in Glascoed

BAE are currently aware that they have started construction work on new melt-case furnaces in reaction to increasing pressures from UK government and MOD for provision of large munitions. BAE acknowledge that MCC have yet to provide planning but admit to being in an awkward position understanding that the application could be objected.

Assurances were made that the cascade system is regularly tested with BAE's first contact being emergency services, followed by County Council and so on. Explained that site is spread out in a strategic way to mitigate any major catastrophe.

BAE looking to work with and support local community and organisations where possible. Clerk explained situation with Monkswood cricket club and Paul expressed interest in knowing more. Will pass on secretary's details.

Paul happy to arrange further meetings with councillors, tour, visit to heritage museum OR happy to attend a Council meeting to discuss any matters with councillors or explain more about BAE and the impact on the community.

BAE wary of commercial operations at the farm on the BAE west access road. Concerns over structures being built, increase in traffic and the potential effects it may have on the safety and operations on BAE.

BAE unhappy with the current speed limit through Glascoed on main road in front of RFO houses. BAE would like to see a reduction in speed to 40mph – several incidents have taken place where staff have been involved. One staff member did not return to work following an accident on the junction into the facility – BAE would like to see a roundabout installed as a replacement to the junction. Clerk explained that MCC did not have a strong finance budget and BAE suggested that they would consider meeting costs if it improved their facility.

This is to the fact that the plant is looking to operate 24/7 with an increase in traffic entering / leaving the facility in general.

BAE open burns waste product that cannot be removed from the site. This is monitored in accordance with legislation set out by Welsh Government and National Resources Wales. BAE monitor closely and are looking to improve site carbon footprint / reduce emissions.
